

Customers in San Francisco, California, Can Get Toyota Certified Used Mirai Models

Toyota Certified Used Mirais are Available for Purchase at San Francisco Toyota in San Francisco, California.

SAN FRANCISCO ([PRWEB](#)) October 13, 2022 -- As part of the Toyota Certified Used Vehicles (TCUV) program, the [San Francisco Toyota](#) dealership in San Francisco is offering used Toyota Mirai models with special 0% APR financing for up to 72 months for all eligible buyers. The [Toyota Certified Used Vehicles \(TCUV\)](#) program was launched in 1996, and the program has gained momentum by undergoing over three million sales and counting.

Their certification process requires the TCUV standards to be applied from the time they acquire the vehicle to the final sale. Certification candidate can be a current model year vehicle, up to and including six-year-old models, with 85,000 miles or less on the odometer. A CARFAX vehicle history report is reviewed to ensure that only the best vehicles receive the Toyota Certified Seal of approval before the rigorous 160-point inspection every certified Toyota goes through.

Along with industry-leading heritage, an exceptional coverage policy is an added advantage. The dealership guarantees a 7-year/100,000-mile Limited Powertrain Warranty plus one full year of Roadside Assistance. Moreover, individuals will receive a free CarFax® Vehicle History Report™ as part of the program. Customers can go to the dealership website to view the [TCUV inventory](#) and purchase the Mirai variant of their choice.

Parties interested in learning more about the program can visit the San Francisco dealership at 3800 Geary Blvd., San Francisco, California. For an informative tour about the finance options or any other special deals, individuals can contact their team by calling 415-504-1947.
