

H&M Bay, Inc. Recognized as 2022 Top 3PL & Cold Storage Provider

H&M Bay, Inc., a premier logistics provider for less than truckload (LTL) frozen and refrigerated commodities, has once again been named a “Top 3PL & Cold Storage Provider” by Food Logistics magazine. H&M Bay has proudly received this award annually for more than a decade.

FEDERALSBURG, Md. ([PRWEB](#)) October 06, 2022 -- H&M Bay, Inc., a premier logistics provider for less than truckload (LTL) frozen and refrigerated commodities, has once again been named a “Top 3PL & Cold Storage Provider” by Food Logistics magazine. H&M Bay has proudly received this award annually for more than a decade. The annual Top 3PL & Cold Storage Providers award celebrates those companies making it happen behind the frontlines. For four decades, H&M Bay has stood out among temperature-controlled LTL transportation companies. Their dispatch team moves 20 million pounds of freight per week in more than 7,000 weekly shipments.

Third-party logistics (3PL) and cold storage providers have kept moving products through the global cold food supply chain in the face of a tumultuous time for U.S. fleets facing everything from Canada-border protests to increased shipping volumes. In spite of these challenges, the global 3PL market is expected to reach more than \$1.75 trillion by 2026, registering a growth rate of 8% during the period (2021-2026).

Food Logistics is the only publication exclusively dedicated to covering the movement of products through the global cold food supply chain. Their Top 3PL & Cold Storage Providers award recognizes leading third-party logistics and cold storage companies in the food and beverage industry. 3PLs and cold storage providers continue to be the backbone that enable the cold chain to support businesses across the country.
