

FY2002 Federal Fleet Report

February 20, 2003

Dear Reader:

We are pleased to present the Federal Fleet Report for fiscal year 2002. This is the third year that the report has been produced through the Federal Automotive Statistical Tool (FAST), an Internet-based system that collects fleet data from Federal agencies to satisfy several distinct reporting requirements.

This year's report was prepared well within our committed time period of six months from the close of the fiscal year. This is the earliest the Fleet Report has been available, ever. The improved timeliness of the Report should significantly enhance its value.

We intend to begin a process of revising the Federal Fleet Report this year to provide more helpful information, more valuable comparisons, and eliminate duplicate or valueless information. If there are changes you would like to see, please contact us at vehicle.policy@gsa.gov.

We trust that this year's report will be of value to you.

William T. Rivers

GLOSSARY	55

FISCAL YEAR 2002 FEDERAL FLEET REPORT INTRODUCTION

OVERVIEW

Federal departments and agencies and their contractors use motor vehicles to perform their missions. Vehicles are obtained from three primary sources: purchase, commercial lease, and lease from GSA Fleet. This report presents the inventory, utilization, cost, and fuel use associated with this large fleet of vehicles. Data are summarized by civilian, military, and Postal Service; as well as domestic, foreign, and worldwide. Tables of data, charts that display the data graphically, and trends are included as well.

Privately owned vehicles used by employees on official business are not included; neither are short-term commercial rentals (less than 60 days). Special purpose vehicles are also excluded from this Report.

DATA COLLECTION

This report summarizes data reported by Federal agencies in the Federal Automotive Statistical Tool (FAST), an internet-based reporting platform, which replaced the old Standard Form 82, *Agency Report of Motor Vehicle Data*. It also includes data reported by GSA's Office of Vehicle Acquisition and Leasing Services, which includes both GSA Fleet and GSA Automotive. GSA Fleet is the component of GSA that manages a fleet of non-tactical vehicles for use by other Federal agencies and their contractors; GSA Automotive is the office that writes vehicle specifications and contracts for the purchase of non-tactical motor vehicles on behalf of all Federal activities.

As in previous editions of this report, fleet data for the General Services Administration is displayed in various ways, depending on the table or chart. In some cases, GSA reports on the vehicles it uses to perform its mission; in other cases GSA data reflect its function as a fleet service provider to other agencies, much like a commercial leasing company. Consequently, entries for GSA sometimes show a fleet of over 170,000 vehicles, with corresponding miles traveled and fuel used; and at other times GSA's vehicles, miles, and fuel use are distributed among the agencies by which the vehicles are used.

All agencies are required to report vehicle inventory and commercial leasing information. Large fleets (over 2,000 vehicles) are also required to report on cost, mileage, and fuel used; small agencies may report these data voluntarily, in which case they are also included in this report. The determination that a fleet is large or small depends on the management structure within the agency; consequently, a single agency may have multiple fleets, including large, small, or both. In fiscal year 2002 there are 21 large and 27 small fleets represented in this report.

DISTRIBUTION

The Federal Fleet Report is available only via the internet. Printed copies are not produced. Members of the Congress, Federal agencies, libraries, private industry, researchers, and others are welcome to view, download, or print the report from the Federal Vehicle Policy Division homepage at <http://www.gsa.gov/vehiclepolicy>.

Questions and comments concerning this report may be addressed to:

FY2002 FEDERAL FLEET REPORT EXECUTIVE SUMMARY

PURPOSE:

This annual report is designed to provide essential statistical data for worldwide Federal motor vehicle fleet operations. Review of the report assists Government agencies in evaluating the effectiveness of the operation and management of their individual fleets in order to determine whether vehicles are being utilized properly and to identify those high cost areas where fleet expenses can be reduced. The report is also used by various segments of private industry in addition to State and local governments.

BACKGROUND:

This report summarizes statistical data on agency-owned, GSA Fleet and commercially-leased vehicles. The data also details each agency's fleet categorizing their vehicles by civilian, military, postal service and domestic, foreign, and worldwide. This report includes sedans, station wagons, ambulances, buses, and trucks. Additional detail is provided for sedan class and truck subtypes (4x2, 4x4, medium and heavy truck). Charts and graphs present the trend and detailed table data. No data is available for privately-owned vehicles.

SUMMARY OF DATA:

- Federally operated vehicles totaled 579,506, a decrease of 2.79 percent from FY 2001 (Chart 2).
- There were 21 large fleets (over 2,000 vehicles) (Table 16).
- 36 percent of the Federal fleet is used by the Postal Service, 35 percent by civilian agencies, and 29 percent by the military (Chart 1B).
- 68 percent of the Federal fleet is owned by the using agencies, 30 percent is leased from GSA Fleet, and 2 percent is leased commercially (Chart 1C).
- Mileage increased 8.14 percent, from 4.70 billion to 5.08 billion (Chart 6).
- Gallons of fuel consumed decreased 3.91 percent, from 362.3 million to 348.1 million (Chart 8).
- Reported use of alternative fuels decreased 9.39 percent, from 9.743 million gallon-equivalents to 8.828 million (Chart 8).
- Total cost of operation increased 3.17 percent, from \$2.27 billion to \$2.34 billion (Chart 10).
- Domestic average cost per mile decreased 14.17 percent, from \$0.4856 to \$0.4168. Foreign cost per mile decreased 22.03 percent, from \$0.5694 to \$0.4440 (Chart 12).
- The number of commercially leased vehicles rose 4.20 percent, from 11,324 to 11800 (Table 12).
- The total worldwide cost of commercial leasing decreased 4.52 percent from \$67.0 million to \$64.0 million (Chart 14).

**FY2002 FEDERAL FLEET REPORT
Executive Summary (Continued)**

LARGE FLEETS:

Those agencies operating fleets worldwide of over 2,000 vehicles (including GSA Fleet provided, agency-owned, and commercially leased vehicles) are listed below. Large Fleets represent 99% of the entire fleet. Please refer to Table 16 for a complete breakdown.

Agency	# of Vehicles		% Change
	FY01	FY02	
Corps of Engineers Civil	4,904	4,635	-5.49%
Defense Agencies	2,154	2,027	-5.90%
Defense Logistics Agency	0	3,106	
Department of Agriculture	40,969	37,862	-7.58%
Department of Air Force	53,655	44,733	-16.63%
Department of Army	73,209	67,197	-8.21%
Department of Energy	15,659	14,368	-8.24%
Department of Health and Human Services	3,818	2,678	-29.86%
Department of Justice	42,533	41,910	-1.46%
Department of Labor	4,572	5,491	20.10%
Department of Navy	40,005	38,463	-3.85%
Department of State	6,521	6,847	5.00%
Department of the Interior	34,197	36,770	7.52%
Department of Transportation	10,486	9,087	-13.34%
Department of Treasury	19,706	19,023	-3.47%
Department of Veterans Affairs	8,403	9,328	11.01%
General Services Administration	2,344	2,214	-5.55%
National Aeronautics and Space Administration	2,261	3,994	76.65%
Tennessee Valley Authority	2,764	2,977	7.71%
U.S. Postal Service	210,124	208,395	-0.82%
United States Marine Corps	11,141	11,068	-0.66%
Total Large Fleets	589,425	572,173	-2.93%

Note: Prior year fleet reporting for the National Aeronautics and Space Administration mistakenly did not include Government vehicles used by contractors. That error is corrected in the 2002 data reported here, accounting for the apparent increase in NASA's fleet.

FEDERAL FLEET OPTIONS

GOVERNMENTWIDE FLEET MANAGEMENT SERVICES

The General Services Administration established the Office of Governmentwide Policy, which includes the Federal Vehicle Policy Division, in December 1995. The Division writes the regulations governing fleet operations throughout the Federal government, and provides policy guidance and advice on issues of concern to Federal fleet operators. Publication of this report is one of the services provided by the Division.

For more information, contact:

General Services Administration
Office of Governmentwide Policy
Federal Vehicle Policy Division – MTV
1800 F Street, NW, Room 1241
Washington, D.C. 20405

Or visit the Division's website at <http://www.gsa.gov/vehiclepolicy>.

US GOVERNMENT CHARGE CARD PROGRAM

GSA is responsible for administering the U.S. Government Charge Card Program. The program provides an efficient and convenient method of obtaining fuel and services for Federally owned and operated vehicles, including boats and aircraft, as well as powered equipment (lawn mowers, chain saws, etc.), while adhering to all regulations, policies, and statutory requirements. Cards issued under the program are accepted at over 120,000 fueling stations across the country.

More information about the U.S. Government Charge Card Program is available from:

General Services Administration
Federal Supply Service
Support Services Division-FCFX
Washington, D.C. 20406

Or at the website <http://www.fss.gsa.gov/services/gsa-smartpay>.

VEHICLE LEASING

GSA Fleet is part of GSA's Office of Vehicle Acquisition and Leasing Services, a component of the Federal Supply Service. GSA Fleet is a centralized source for obtaining fleet vehicles and management services for Federal agencies and authorized contractors. GSA Fleet provides nearly every sort of non-tactical vehicle, from sedans to heavy equipment, including alternative fuel vehicles, at monthly and per-mile rates that cover all elements of cost, including fuel and maintenance. GSA Fleet is a non-mandatory source of supply, and therefore aims to provide vehicles and services at the lowest possible cost and the greatest possible convenience. GSA Fleet services are provided through a network of Regional Fleet Management offices, local Fleet Management Centers, and a centralized Maintenance Control Center.

For additional information about GSA Fleet, contact:

General Services Administration
Federal Supply Service
Office of Vehicle Acquisition and Leasing Services
GSA Fleet – FFF
1941 Jefferson Davis Highway
Arlington, VA 22202

Or visit the GSA Fleet website, <http://www.fss.gsa.gov/vehicles>

VEHICLE PURCHASING

Another component of the Office of Vehicle Acquisition and Leasing Services is GSA Automotive, GSA's vehicle purchasing arm. This office writes the specifications for vehicles acquired by Federal agencies, and buys non-tactical vehicles on behalf of all Federal agencies, including GSA Fleet. Volume buys and skillful negotiating and contracting produce low prices.

For more about GSA Automotive, contact:

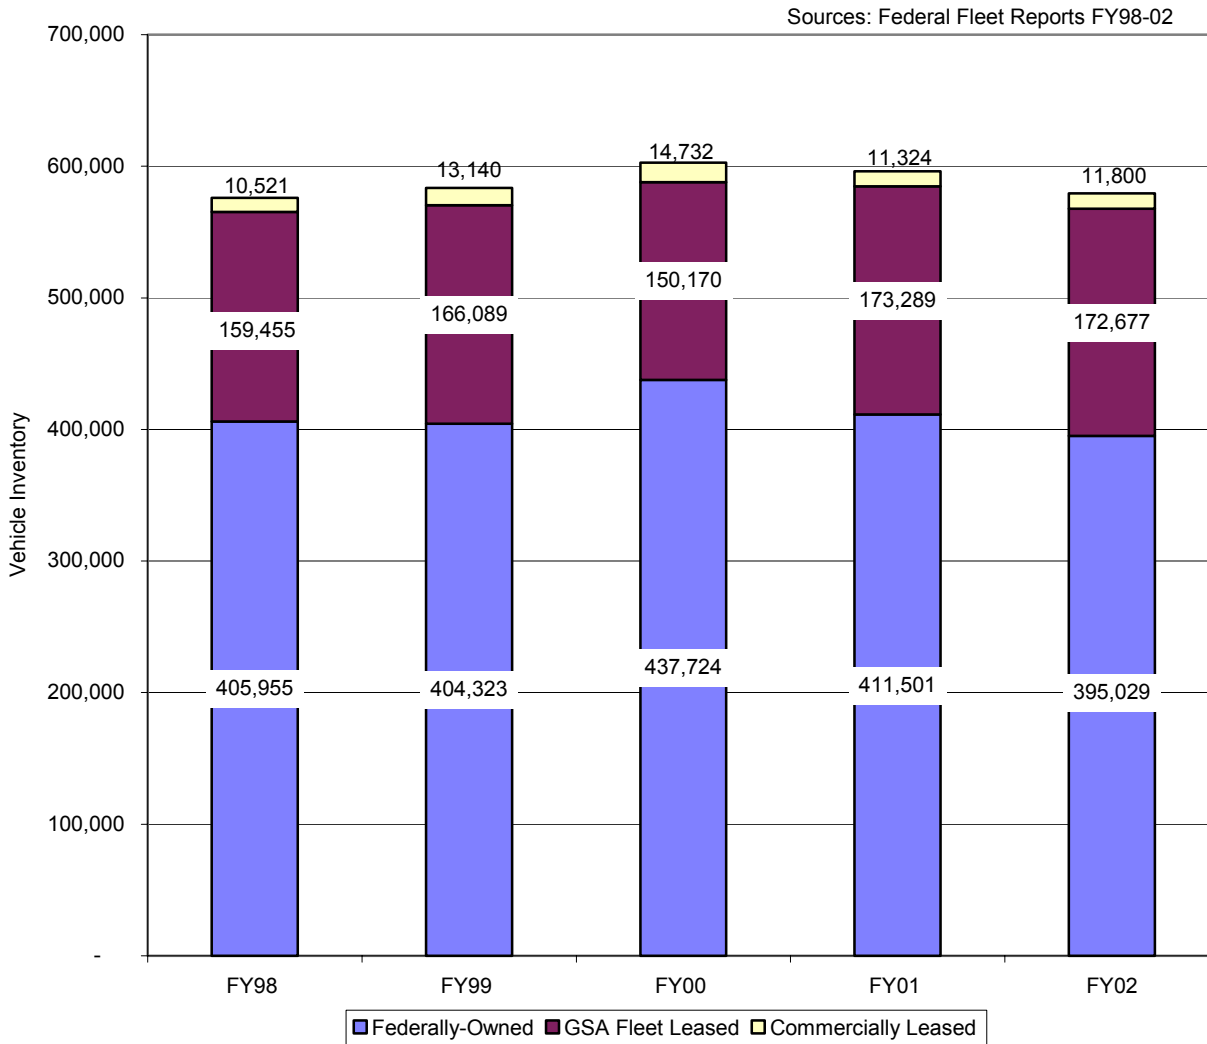

General Services Administration
Federal Supply Service
Office of Vehicle Acquisition and Leasing Services
GSA Automotive – FFA

Or see the GSA Automotive website at <http://www.fss.gsa.gov/vehicles>

Data on this table are from two sources: GSA Fleet provided the miles and cost, while individual agencies reported the number of vehicles. Average miles were calculated from these two sources. Due to differences in reporting, anomalies result in some cases.

* CNG and LNG were not separately reported prior to FY 2000.

** Hydrogen use was not reported in FY2000 and dropped from this report - prior years values were consolidated under "Other."

*** For all alternative fuel vehicles except biodiesel, there is a corresponding alternative fuel vehicle for each alternative fuel. Biodiesel is unique in that it is an alternative fuel that is used in conventional diesel engines. Consequently there is no category for biodiesel as an alternative fuel vehicle. Reported acquisitions of biodiesel vehicles in prior years are erroneous.

Chart 16: Vehicle Acquisitions by Fuel Type

This Chart compares vehicle acquisitions by fuel type.

Acquisitions reflected here may not match those reported by GSA Automotive (Table 11). GSA Automotive acquires vehicles for entities that are not required to report, such as Legislative and Judicial Branch activities, and some agencies may have limited authority to acquire vehicles independently of GSA Automotive. Also, GSA Automotive reports vehicles ordered, whether or not they have been delivered.

GLOSSARY

ACQUISITION—An addition to an agency's inventory. The source of the addition can be purchase of a new (or used) vehicle, acquiring a vehicle through a commercial lease, or from GSA Fleet. Replacements for vehicles retired and sold count as acquisitions. Vehicles transferred from one activity to another within an agency do not constitute acquisitions. Acquisitions should be reported in the year they are ordered, even though physical receipt may not have occurred until the following reporting period.

ACQUISITION COST—The initial purchase price of a vehicle, including all costs incidental to placing it in service, such as shipping and factory prep.

ASSIGNMENT—Another term for lease from GSA Fleet. Assignment can occur whenever one accountable organizational element makes its vehicle(s) available for use by another.

COMMERCIAL LEASE—Acquisition of a vehicle for 60 days or more from a commercial source. Acquisition of vehicles from commercial sources for less than 60 days is considered short-term rental, and not reported.

DEPRECIATION—A major component of vehicle cost; generally, the difference between acquisition cost and anticipated sales proceeds. For purposes of this report, GSA Fleet reports its depreciation cost expressed as a cost-per-mile, which is then applied to other agencies' reported mileage (except Postal Service, which supplies its own depreciation cost). Agencies on appropriated funds typically do not recognize depreciation expense or account for it in their internal accounting systems.

DIRECT COST—Operating expenses attributable to an individual vehicle or class of vehicles, such as maintenance and depreciation.

DISPOSAL—Removal of a vehicle from inventory, usually by sale, but also through transfers and donations. For activities on revolving funds, proceeds from disposal are available for the purchase of replacement vehicles. For agencies on appropriations, disposal proceeds usually do not return to the fleet activity.

DOMESTIC—Referring to any State, Commonwealth, territory, or possession of the United States.

FOREIGN—Outside any State, Commonwealth, territory, or possession of the United States.

GSA FLEET LEASE—A vehicle acquired by a Federal agency or authorized contractor from GSA Fleet. Such vehicles are usually Government owned, but are treated similarly to commercial leased vehicles by using agencies.

INDIRECT COST—Expenses that cannot be readily attributed to an individual vehicle or class of vehicles because they are incurred in connection with overall fleet operation: office supplies, printing, utilities, and other general management and overhead.

LARGE FLEET—2,000 or more reportable vehicles, domestic or foreign, for which accountability is held by a Federal agency's organizational element or by a contractor. Large fleets are required to report on inventory, commercial leasing, cost, mileage, and fuel used.

OWNING AGENCY—Federal agency or organizational element having accountability for Government owned vehicles. Characterized by the authority to take possession of, assign, reassign, or sell a vehicle, regardless of which agency or element is using the vehicle.

PASSENGER VEHICLE—Sedans and station wagons. Although passenger vans and sport utilities are sometimes considered passenger vehicles, Federal Standards and this report classify them as light trucks.

REPORTABLE VEHICLE—All commercial-design, non-tactical vehicles, excluding special-purpose equipment. Includes vehicles acquired from all sources, including owned, GSA Fleet-leased, or commercially leased.

SMALL FLEET—Less than 2,000 reportable vehicles held by an organizational element of a Federal agency. Small fleets are required to report only vehicle inventory and commercial leasing information.

USING AGENCY—The Federal agency or organizational element with day-to-day use of a vehicle that it does not own. Agencies assigned vehicles by GSA Fleet are using agencies, GSA Fleet is the owning agency.

UTILIZATION—A measurement of a vehicle's rate of use, usually expressed in miles per vehicle per month or per year.

VEHICLE CLASS—A system of categorizing vehicles based on the Federal Standards.
