Press Release

I-10/Mesquite & Vado Bridge Interchange *Mesquite, NM*

Las Cruces - The District One office for the New Mexico Department of Transportation (NMDOT) with El Terrero Construction continue with the I-10 Bridge overpass at the Mesquite exit. Currently the contractor has placed concrete beams across the eastbound I-10 interstate lanes, and will proceed with the placement of the concrete bridge deck. The contractor will need to begin the removal of the ramps in order to reconstruct the eastbound on and off ramps at Mesquite exit 151.

The contractor will need to **close** access to the eastbound on and off ramps (exit 151), in order to realign the approaches as they will tie into the newly constructed design for the Mesquite interchange. This closure will be placed by Monday September 8th at 8:00 am and is scheduled to be lifted by the end of business on Monday October 20, 2014.

Updates related to road projects and traffic alerts will be posted on the Department's web site www.NMroads.com, and can be retrieved by calling 511 in New Mexico or 1-800-432-4269 out of state.

###

For questions regarding this project you may contact Benito Trevino, NMDOT Project Manager at (575) 882-2294, or Bridget Spedalieri, NMDOT District One Public Information Officer at (575) 525-7340.
