

## **Ten Factory Replacement Axle Shafts from Summit Racing Equipment: Better Than OEM at a Great Price**

*Why pay dealer prices or get some no-name axle shafts when better-than-new direct replacement shafts are available from Summit Racing? Motive Gear's Ten Factory Axle Shafts are made from 4340 chromoly alloy steel, then dual-heat treated for extra strength.*

Tallmadge, OH ([PRWEB](#)) January 12, 2016 -- Why pay dealer prices or get some no-name axle shafts when better-than-new direct replacement shafts are available from Summit Racing? Motive Gear's [Ten Factory Axle Shafts](#) are made from 4340 chromoly alloy steel, then dual-heat treated for extra strength.

Each Ten Factory axle is engineered in-house and quality-checked in its own QC lab, so enthusiasts are getting the best possible replacement shafts available. Ten Factory even backs them with a 10 year replacement warranty.

Ten Factory axle shafts are available for the following axle types:

- Dana 30, 35, 44, and 60
- GM 7.5, 7.625, 8.2, 8.5, 8.875, and 9.5 inch
- Ford 7.5, 8.8, 9, and 9.75 inch
- Chrysler 8.25 inch
- AMC Model 20
