

Minimizer Launches New Tire Mask Product Making Wheel and Rim Refurbish A Snap

Minimizer now sells Minimizer Tire Mask that transforms the look of heavy-duty trucks' wheels.

Blooming Prairie, MN ([PRWEB](#)) January 01, 2014 -- Minimizer is proud to introduce Minimizer Tire Mask, a revolutionary product that transforms the look of wheels with great ease. Minimizer Tire Mask is a user-friendly kit that allows heavy-duty truck owners and operators and maintenance departments to paint their wheels in a few simple steps.

Painting heavy-duty truck rims can be a tedious, time-consuming task. But Minimizer Tire Mask reduces masking and cleanup time dramatically. Now, even the oldest of rims can look brand new.

Minimizer Tire Mask will deliver the same quality and dependability that people have come to expect from the industry leading company. The new product is a perfect heavy-duty aftermarket accessory that will add value to any truck.

The Minimizer Tire Mask kit comes with a Tire Mask that protects tires from paint and primer overspray. The Minimizer Tire Mask installs on the outside of the rim, covering the tire, so you can spray the entire rim with a primer and paint. Additional options include a Rim Shield and Hubb Cap protector to ensure a precise paint job on all wheel components.

Minimizer CEO and Chief Visionary, Craig Kruckeberg expressed his pleasure at launching the product. "Quality and ease are characteristics of Minimizer that we pride ourselves on. Our customers work in a tough industry so we are always pleased to provide products that help to simplify all the difficult work they do. We are excited to launch Minimizer Tire Mask as the latest addition in our ever growing line of aftermarket heavy-duty trucking accessories."

To ensure the process goes smoothly, Minimizer created a demonstration video for users to view that is available by clicking [here](#). The product will be available for purchase February 1, 2014 from Minimizer's international network of authorized distributors. It also includes Minimizer's new VMRS codes.

To outfit your heavy-duty truck with the best in heavy-duty aftermarket products, such as bracket kits, poly truck fenders, poly tool boxes, custom floor mats, custom mud flaps or Minimizer Tire Mask go to Minimizer's website and check out their quality product lines today.
