

Fuel Card Services to Show How Easy it is to Reduce Fuel Costs at Silverstone Fleet Show

Fleet decision-makers attending this year's Fleet World Fleet Show will be given the chance to find out how they can quickly and easily cut their fuel costs.

(PRWEB UK) 17 March 2016 -- At the Show, which takes place at the iconic Silverstone arena on Wednesday 11 May, [Fuel Card Services](#) will be offering attendees a free, no-obligation weekly price check to see how much they could save.

The firm is one of the largest independent agents of fuel cards in the UK, working as agents on behalf of most of the major oil companies including BP, Esso, Shell and Texaco.

Fuel Card Services offers over a dozen different fuel cards which, the company says, means that it can usually offer a better deal. Covering everything from motorways to supermarkets, the choice makes it easy to find an exact match for any fleet's specific refuelling requirements.

Fuel Card Services also has a complete family of fleet management services, covering everything from emissions monitoring to mileage capture, from duty of care to servicing, and will be able to discuss its services at the Fleet World Fleet Show.

The Show will also offer attendees a chance to catch up with some of the other leading service providers in the fleet industry as well attend a programme of informative fleet management workshops.

Attendees will also be able test drive more new cars than ever before on three circuits – the National, International and Stowe circuits, and a road route, with an emphasis on alternative-fuelled as well as conventionally-powered vehicles.
