

New at Summit Racing Equipment: Stack Professional Digital Tire Pressure Gauge

Summit Racing now carries Stack's Professional Digital Tire Pressure Gauge. The gauge incorporates signal-conditioning circuitry, which adapts to the ambient temperature to provide super-accurate and repeatable tire pressure data.

Tallmadge, OH ([PRWEB](#)) May 19, 2016 -- Summit Racing now carries [Stack's Professional Digital Tire Pressure Gauge](#). The gauge incorporates signal-conditioning circuitry, which adapts to the ambient temperature to provide super-accurate and repeatable tire pressure data. It can display the information in either PSI, bar, or MPa, with a 1-50 PSI (0-3.45 bar/0-0.345 MPa) range. The gauge has 0.01 PSI resolution.

Controls are intuitive: On/Off, Backlight, and Reset, and readings are delivered within a fraction of a second. The Stack Professional Digital Tire Pressure Gauge has a 64mm dial face with a backlit LCD screen and is powered by a single 9-volt battery. It is compatible with both air and nitrogen inflation, and comes bundled in a durable, padded storage case. A 24 inch extension hose is included.

Stack made the Professional Digital Tire Pressure Gauge for racers and professional technicians, but it is invaluable for anyone who wants to ensure optimum vehicle traction and preserve tire life.
