

Right Off The "Hot Toys" List For The 2003 Holiday Season

Family Fun magazine just released the list of toys it predicts to be the hot sellers of the 2003 holiday season. On that list is a radio control stunt car. This amazing Radio Control Stunt Car has just hit the ground running... at amazing speeds, flipping, twisting rolling and climbing. It never gets stuck. Now available at the Internet toy store "PuzzleVehicle Toys" already well know for its unique toys and gifts for kids of all ages.

([PRWEB](#)) October 10, 2003 -- Puzzle Vehicle Toys just added one of the "must have" toys of the holiday season. The radio control stunt car, also known as the "Lunar Stunt Vehicle" or the "Stunt Buggy" is already rolling out our doors at high speed. Karyn Grimm, owner of Puzzle Vehicle Toys said, "We knew when we first saw this toy that we had better make sure we have plenty on hand". "At first we thought we might have over stocked but at the rate they are selling we are scrambling to locate more to make it through the holidays" says Karyn.

This is not the mini stunt vehicle that you may have seen. The radio control stunt vehicle makes a great gift for ages 5 and up. It is high quality and for under \$30.00 it comes with all of the required batteries, charger and controller. The stunt vehicle is fast moving, it can do wheelies and even move completely upside down. Its large knobby wheels allow it to climb and tumble without getting stuck.

Karyn suggests that people put in their orders know, as they are available for immediate shipping. "Don't wait till the big holiday rush as the stunt vehicle may be hard to get" adds Karyn.
