

Pocket Choppers Inc. Takes over the mini motorcycle world!

Pocket Choppers Inc. introduces its new 2004 model Pocket Chopper(tm)! Changes include new lower profile fender, new colors and even more dealers and distributors!

([PRWEB](#)) March 17, 2004 --Pocket Choppers Inc. has just released its new 2004 Pocket Chopper! This amazing, 1/3 scale mini chopper is the most fun American made mini chopper on the face of the Earth! With its optional 6 HP OHV Tecumseh engine (195cc 4-stroke) and its Comet Torq-a-verter drive system this little bike out performs bikes twice its price! With a top speed of 40 MPH and a very necessary wheelie bar the fun factor is outrageous! This little guy has enough torque to pull a full sized truck, or for the more practical racer, your car back after a run. Although it only weighs 115 pounds it can handle even the largest of guys that we could find willing to ride it (just over 400 pounds of University of Michigan lineman), and it was a good thing the wheelie bar was on there!

With over 300 bikes sold in the last quarter of last year, 2004 looks to be even better. We have made several revisions to make our product stronger and more appealing to our customers. We have increased our frame warranty to 1 year and our engine warranty to 2 years. We are also offering many new options like a chrome package, a sissy bar, and custom painting abilities. We have also added a new standard color to our line, we now offer Black, Candy Red, Candy Blue and a Bright Yellow (all of which are powder coated for a stronger, more durable finish)! Pocket Choppers Inc. is also offering some one-off custom minis that are still priced below our competitors. Rolling Chassis are now available as well as any part you need for making your own Pocket Chopper!

Prices on completed bikes start at only \$1995 and can be shipped via UPS world wide! We also have opportunities for new dealers and distributors (still available in most states)! You can contact us at 616-794-3000 ,email us at sales@pocketchoppers.com , or visit our website at www.pocketchoppers.com.

Product pictures and video available upon request.
