Automotive Wolf v4.43 released

Full Service for your car or truck !
The easiest most comprehensive way to keep your vehicle in safe and top running condition and avoid costly repairs. Designed with our team of automotive experts with over 100 years of experience in the industry.

([PRWEB](#)) April 22, 2004 -- Automotive software designed for the average automobile owner or the serious car enthusiast. Designed to be completely user configurable so you can "tailor" it to the specific needs of each of your vehicles. Easily track repairs, scheduled maintenance, service history, fuel usage, operating costs and much more. Automotive Wolf will remind you when service is due, and even help you diagnose and research automotive problems. Our team of automotive experts with over 100 years of experience in the field of automotive repair and design provided their expertise in the design of Automotive Wolf, including many valuable car care tips and advice on keeping your vehicle in safe and excellent condition. Actually save money and increase the resale value of your vehicle by simply using the software and following their recommendations. Our award winning interface is both beautiful and functional. Easily set up a gauge to track any maintenance requirement. Feature packed with options no other software can match. Automotive Wolf is the best investment you can make in your vehicle. Try it out for 30 days completely FREE and then YOU decide!
