

COMPACT PORTABLE MOTORCYCLE SHELTER Invented by InventHelp Client (SKC-242)

InventHelp is attempting to submit this client's idea, the COMPACT PORTABLE MOTORCYCLE SHELTER, to appropriate companies for review.

PITTSBURGH, PA ([PRWEB](#)) January 12, 2017 -- InventHelp is attempting to submit this client's idea, the COMPACT PORTABLE MOTORCYCLE SHELTER, to appropriate companies for review.

“We recognized the growing demand and need for a compact, portable shelter that would provide motorcyclists with a better method of protecting themselves and their motorcycles during rallies, trips and unforeseen breakdowns against inclement weather,” said one of two inventors, from Johnstown, N.Y. “So we invented the COMPACT PORTABLE MOTORCYCLE SHELTER.”

The COMPACT PORTABLE MOTORCYCLE SHELTER provides an effective way to protect a parked motorcycle outside. In doing so, it helps to prevent damage caused by rain, sun, dirt, sap, droppings, etc. As a result, it ensures that a motorcycle remains clean and dry, helps prevent corrosion and rust, and provides added peace of mind. The patent pending invention features a portable design that is convenient and easy to use/store so it is ideal for the owners of motorcycles.

Additionally, the COMPACT PORTABLE MOTORCYCLE SHELTER is producible in design variations and comes in a convenient carrying case that can be stowed on the person, in a saddle bag or attached to the motorcycle.

The inventors described the invention design. “Our portable design provides a shelter anywhere.”

The original design was submitted to the National Sales Office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 15-SKC-242, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
