

## **Inventor Develops Safety System for Motorcyclists (HTM-6171)**

*InventHelp, founded in 1984 in Pittsburgh, is attempting to submit this idea, Motorcycle Airbags, to applicable companies for their consideration.*

PITTSBURGH, PA ([PRWEB](#)) December 16, 2017 -- PITTSBURGH..."I wanted to enhance the safety of motorcyclists by improving their chances of surviving a collision," said an inventor from Billings, Montana. "I came up with the idea for this safety system to protect the lives of motorcyclists."

He developed the MOTORCYCLE AIRBAGS to provide added protection in the event of a crash. The bags reduce impact forces in collisions. This is designed to enhance safety by minimizing the risk of injuries and fatalities. The invention offers added peace of mind. The system features automatic operation. Additionally, it is adaptable for use with new and existing motorcycles.

The original design was submitted to the National Sales office of InventHelp. It is currently available for licensing or sale to manufacturers or marketers. For more information, write Dept. 16-HTM-6171, InventHelp, 217 Ninth Street, Pittsburgh, PA 15222, or call (412) 288-1300 ext. 1368.
