

RV SnapPad Announces New HWH Product Line

RV SnapPad releases compatible permanent jack pads for Tiffin, Newmar and Winnebago RVs.

MISHAWAKA, Ind. ([PRWEB](#)) January 02, 2018 -- Origen RV Accessories, the parent company of RV SnapPad, is pleased to announce the development of the first ever permanent jackpad for HWH leveling systems. This marks their third addition to a product line-up of permanent jack pads for luxury fifth wheels and Class A motorhomes.

Devon Wilson, VP of Operations at Origen, said, “The HWH version posed a number of unique considerations, however after great feedback from our beta testers we’re confident SnapPad HiWay offers the same value-add benefits as the rest of our line up.”

Origen has also stated that plans for an Equalizer leveling system product is also already in development for 2018, with an anticipated product launch scheduled for Q1.

Robert H., one of the beta testers for the new HWH product, said, “The product is fantastic, I now no longer have to carry my wood blocks there was a lot of positive comments from owners.”

HWH leveling systems are most typically found on [Tiffin](#) brand RVs. However depending on the year and model, HWH can also be found on Winnebago and Newmar rigs. Origen’s new HiWay 10 SnapPad is compatible with 10” Atwood landing feet as well.

SnapPad’s for HWH come in two different sizes to fit 8” and 10” landing feet and three different configurations. Prices range from \$99.95 to \$165.95. Origen also offers a number of discounts for first responders and veterans as well. To learn more, visit the RV SnapPad website [here](#).
