

## **Lexington Toyota prepares for the imminent arrive of new 2021 models**

*Both the 2021 Toyota Highlander and 2021 Toyota Supra have new elements to offer customers for the new model year.*

LEXINGTON, Ky. ([PRWEB](#)) November 19, 2020 -- The class of 2021 Toyota models is really starting to build its numbers at the Lexington Toyota showroom. Some of the most anticipated vehicles that the staff is excited to see are the 2021 Toyota Highlander and the 2021 Toyota Supra. These two vehicles represent two very different ends of the spectrum of platforms available from the automaker. Buyers interested in the 2021 Highlander will be getting an all-new trim grade, despite the model going through the radical overhaul just last year. Potential owners of the 2021 Supra will have a new base-level engine option to consider as well as a new limited-run top trim grade. Both vehicles are expected to arrive at Lexington Toyota before the end of the calendar year.

If someone is looking for [one of the most family-friendly, three-row crossover SUVs](#) on the market, they should inquire about the 2021 Toyota Highlander. For the new model year, Lexington Toyota customers will be able to choose the new XSE trim grade. Toyota engineers have provided the 2021 Highlander XSE with a special set of equipment to allow it to stand out from the rest of the lineup. The automaker has advertised the XSE as being able to provide a unique driving experience.

The entire 2021 Highlander lineup is powered by a 3.5-liter, V-6 engine that will make 295 horsepower and 263 pound-feet of torque. All trim 2021 Toyota Highlander trim grades will be able to tow up to 5,000 pounds.

As impressive as the latest Highlander is, there are more than a few customers that are [looking for a pure, unadulterated driving experience](#). That's the niche filled by the 2021 Toyota Supra. The manufacturer has introduced a new entry-level trim grade that will be powered by a twin-scroll turbocharged 2.0-liter, four-cylinder engine that will make 255 horsepower and 295 pound-feet of torque. Even the standard twin-scroll turbocharged 3.0-liter, inline six-cylinder engine that was originally introduced gets a performance boost. The 2021 Supra 3.0 will make 382 horsepower and 368 pound-feet of torque.

For something extra special, Lexington Toyota customers can choose the A91 Edition.

The entire Lexington Toyota inventory can be viewed by visiting the dealership's website, [www.lexingtontoyota.com](http://www.lexingtontoyota.com). Potential buyers can find the showroom located at 409 Massachusetts Ave. Lexington, MA 02420. Customers can start the pre-ordering process for any vehicle available today by calling 781-325-8558.
