

## **Our Clocks Are More Than Just a Pretty Face**

*Billet clocks and thermometers for motorcycles.*

([PRWEB](#)) October 24, 2004 -- Pro-Street Cycles are pleased to announce that they have now extended their extensive range of billet clocks and thermometers to include their new Billet Bar Clock.

The housing is CNC machined from 6061-T6 billet aluminium and then given a high mirror polish. Each housing incorporates a water-proof quartz clock.

All clocks feature Luminescent hands and dials and have a "soft gasket" mounting system that helps insulate against the damaging effects of vibration. The clocks feature a metal case and special gasket that seals the lens and protects the movement from being damaged by water. Clocks are triple plated for durability and incorporate scratch resistant glass lens.

The clock is available with a choice of combination styles - Black Face/Chrome Bezel or White Face/Chrome Bezel.

The Pro-Street Billet Bar Clock will fit on 1" or 7/8" bars of all makes of motorcycles - (7/8" bars need reducer). Attractively packaged and fully guaranteed.

Pro-Street Cycles now produce a range of surrounds including Stem Nut Cover Clocks, which are available to fit most makes of motorcycle including Harley®®, Honda, Kawasaki, Suzuki, Yamaha, Triumph etc.

The Pro-Street range of Billet clocks retail from £39.99 inc. VAT. For more details visit Pro-Street Cycles at <http://www.pro-streetcycles.com>
