

Skyline Chicago Limo takes the lead in fighting COVID-19

We will provide a stronger safety guarantee to those who have to travel for emergencies amidst this gloom of coronavirus epidemic.

CHICAGO ([PRWEB](#)) April 11, 2020 -- High end cars like limousines require high end technology not just to maintain style and luxuriousness of the vehicle but to also manage safety of the passengers travelling in it, day in and out. Skyline Chicago Limo under the blues of pandemic COVID-19 is taking their services to an all new level.

Every car that is in operation is being cleaned and disinfected, every day. Staff on duty does not only sterilize the entire vehicle time and again but also carry out a thorough inspection of the chauffeur's body temperature before the car is sent for passenger pickup. All the members of the company are properly equipped with masks and disinfectants are sprayed by the cleaning team wherever people touch, both inside and outside the vehicle after the trip gets over.

Coronavirus has become a big challenge for the whole society. It is these efforts that will ensure the travel safety of not only the passengers but also the drivers, serving relentlessly day and night. Strict control measures are being taken into consideration by Skyline Chicago Limo as only these features will provide a stronger safety guarantee to those who have to travel for emergencies amidst this gloom of coronavirus epidemic.
