**PAOLI, Pa. (July 16<sup>th</sup>, 2021)** - AmericanMuscle (AM) has released another installment of their “Customer Builds” YouTube series. The new video showcases a 2005 V6 Mustang owned by Tom from California. Hosted by AM’s Justin Dugan, the build features over 35 mods and will appeal to Mustang owners with a passion for the classics. Viewers can learn more on AM’s dedicated build pages, including photos and a full breakdown of all the mods used for this feature build.

***“Tom’s spirit from modifying, taking things that aren’t meant to go on his car, making them work and making them look good is really impressive.”***  
***-- Justin Dugan***

When it comes to modifications, this 2005 V6 S197 leaves no stone unturned. The owner was committed to the retro theme and was not afraid to make a few changes of his own. Key mods include matching headlights and [taillights](#), a front spoiler, bullet wheels, and a [shaker hood](#) customized to fit MMD hood vents. The Flowmaster Outlaw exhaust with Corsa quad tips took a little

research on melting plastic, but the result is flawless. The interior continues the classic theme with a roll bar, multiple gauges, a suede steering wheel and more.

AM’s “Customer Build” video series is for Mustang enthusiasts who like to modify and drive, build and race late-model Mustangs. Tom’s customized 2005 Mustang V6 provides inspiration with over 35 appearance and performance mods. AM plans to continue the spotlight series providing a place where Mustang enthusiasts can connect, learn, and come away with a few ideas for their own build.
