BOERNE, Texas ([PRWEB](#)) August 20, 2021 -- Land Rover Range Rover fans in Boerne and San Antonio have the opportunity to own an extremely limited-edition Range Rover model called the 2021 Range Rover Fifty in their city. The region's local Land Rover dealership, Land Rover Boerne, is proud to have added a brand-new special edition Range Rover Fifty to its showroom lineup and invites interested parties to test drive or reserve the one-of-a-kind [Range Rover Fifty](#) which commemorates the 50th anniversary of the iconic Range Rover and use the opportunity to be a part of Land Rover history.

The newly added 2021 Range Rover Fifty Edition at Land Rover Boerne is offered in a limited-run heritage solid exterior color option called 'Bahama Gold.' The paint job is part of the three original paint schemes from the original Range Rover from 1970. The 2021 Range Rover Fifty available at Land Rover Boerne is powered by a supercharged, 5.0-liter, V-8 engine that produces 517 horsepower. The engine is paired with an automatic transmission and features Range Rover's legendary four-wheel-drive system.

To set it apart from the regular Range Rover, every Range Rover Fifty model features several distinct celebratory exterior and interior treatments that signify the excellent five decades of the Range Rover lineup. The Range Rover Fifty features a discreet "fifty" script badging embossed on its side vents, leather headrests, dashboard, and the illuminated treadplates. Every individual Range Rover Fifty model will be uniquely designated '1 of 1970' on the center console commissioning plaque to remind the owner of the model's exclusivity and strictly limited run.

The Range Rover Fifty Edition will be limited to only 1,970 units globally to mark the 1970 birth year of the first-generation Range Rover, and only 400 Range Rover Fifty units will be offered in North America.
