San Leandro, CA ([PRWEB](#)) December 1, 2005 -- The Honda Civic is the “2006 Car of the Year”. The Honda Civic claimed this top honor from Motor Trend magazine.

Now in its 57th year, the Motor Trend Car of the Year Award is a coveted honor in the automotive industry.

"With their bold, contemporary styling and innovative technology, the new Civics are primed for success in one of the most competitive market segments in the country," Motor Trend said in its announcement.

All four 2006 Civic models – the Civic Sedan, Coupe, the high-performance Civic Si and the Civic Hybrid - were given the award.

Motor Trend picked the 2006 Honda Civic from a field of 28 new models, including the Audi A3, BMW 3 Series, Cadillac DTS, Chevrolet HHR, Dodge Charger, Ford Fusion, Mercedes-Benz R-Class, Pontiac Solstice, Toyota Avalon and the Volkswagen Jetta and Passat. The magazine chooses its vehicles of the year based on “Significance, Superiority, and Value”.

"With the sizzling Si, a sleek coupe, an elegant sedan, and a Hybrid that averages 50 miles per gallon, each model shines through with what Motor Trend looks for when crowning Car of the Year” – said Angus MacKenzie, editor-in-chief of Motor Trend.
