

Propark Mobility Announces Appointment of Alexander Piech to Regional Vice President

Propark Mobility announced today that the company has promoted Alexander Piech to Regional Vice President of the company's New Jersey region.

HARTFORD, Conn. ([PRWEB](#)) September 28, 2021 -- Propark Mobility announced today that the company has promoted Alexander Piech to Regional Vice President of the company's New Jersey region.

“Alexander Piech is a client-focused professional, who brings a great deal of value through his acute attention to detail and service-oriented approach to parking management,” said John Reimers, Propark Mobility's Chief Operating Officer. “As his career has progressed with Propark Mobility, he has successfully grown the New Jersey region, while optimizing client revenues, minimizing expense, and implementing award-winning service initiatives.”

Alexander joined Propark Mobility in October of 2011, first serving as Area Manager, which included the successful launch of a new airport parking brand in the New Jersey marketplace. His responsibilities grew to encompass the entire New Jersey Region, as Alexander was promoted to Regional Manager, where his performance excelled across asset verticals resulting in enhanced profitability for clients and increased guest satisfaction scores. Alexander's detailed knowledge of the New Jersey market, coupled with his clear understanding of, and focus on, client needs through consistent communication were factors that propelled his promotion to Regional Vice President.

“I can say without reservation that nobody understands the nuances of the New Jersey parking marketplace quite like Alex Piech,” said Kristen Sokich, Executive Vice President of Propark Mobility. “Our clients and stakeholders directly benefit from Alex's exceptional service delivery standards and ability to optimize bottom line revenue, regardless of the asset type or marketplace conditions, including his outstanding leadership as we navigated the global COVID-19 pandemic.”

As Regional Vice President, Alexander reports directly to the Executive Vice President, and is responsible for the overall successful financial performance of the parking assets in the New Jersey Region.

About Propark Mobility

Propark Mobility is one of the country's largest privately-owned parking companies, providing full-service parking and mobility services for over 600 hospitality, healthcare, commercial, and off-airport locations, in over 100 cities across the United States.
