

New 2022 Nissan SUV Models Now Available at Glendale Nissan

The 2022 Nissan Pathfinder has recently arrived in Glendale Heights

GLENDALE HEIGHTS, Ill. ([PRWEB](#)) August 31, 2021 -- New 2022 Nissan models are starting to show up on the Glendale Nissan lot, and the 2022 Pathfinder is among the first. The dealership currently has the S, SV and SL 2022 Pathfinder trim levels available all with four-wheel drive. Even more Pathfinder models are expected to arrive in the future.

Due to shortages during the height of the pandemic, the 2021 model year update of the Nissan Pathfinder was skipped entirely, and though 2020 models were still available throughout late 2020 and early 2021, the new fifth-generation 2022 Pathfinder marks the return of the Pathfinder.

The horsepower remains unchanged from the 2020 model with 284 horsepower and 259 pound-feet of torque, but with a new 9-speed automatic transmission replacing the CVT of the previous generation. Some of the other new features include a redesigned intelligent 4x4 system, a captain's chair option for the second row, an available 10.8-inch head-up display and more improvements.

To help its customers navigate through the new features both standard and available on this new Pathfinder model, Glendale Nissan has put together a research page dedicated to the 2022 Pathfinder where potential buyers can both view new Pathfinder inventory and even reach out to the dealership directly.

To see the new Pathfinder models that Glendale Nissan has in stock or to learn more through the research pages that the dealership has created, interested parties can visit the dealership's website at www.glendalenissan.com. Glendale Nissan can also be reached by phone at 630-469-6100. The dealership is located at 484 East North Avenue in Glendale Heights, IL.
