

Maine Auto Dealership Supports the Champion the Cure Challenge to Defeat Cancer

Downeast Toyota in Brewer, Maine supports the Northern Light Eastern Maine Medical Center in its Champion the Cure Challenge to defeat cancer once and for all.

BREWER, Maine ([PRWEB](#)) September 02, 2022 -- [Downeast Toyota](#), a dealership in Brewer, Maine, has joined the cause for all of humanity. They help raise funds for the Champion the Cure Challenge, which is an event sponsored by Northern Light Eastern Maine Medical Center. This important fundraiser aims to help fund research to eradicate cancer.

Annually, hundreds if not thousands of people across Maine join in working toward the same goal. They come from a broad variety of backgrounds. Some are cancer survivors, some are teachers, doctors, students, grandparents, parents, and many more. What is the goal they're working toward? They want the people of Maine to get world-class cancer care available across the state. [Champion the Cure Challenge](#) is the only event in Maine that funds local cancer research and enhances patients' care and their experience fighting cancer.

A spokesperson for the challenge said, "nearly \$360,000 was raised at the twelfth annual Challenge in 2021, and in total, the event has raised more than \$5.7 million in its history to support cancer research and patient care at Northern Light Cancer Care. We've entered the era of less chemo and more cures." She went on to say, "new treatments that are more precise with fewer side effects will extend lives. As treatments advance and collaborations that benefit patients continue to develop, the need for support becomes even greater."

Any way you take part - trail ride, paddle, walk, cycle, run, or join online for yourself or in honor or memory of someone close to you, know that every dollar you raise will stay local to help patients and families in our communities that are affected by cancer.
