

## **Downeast Toyota offers ToyotaCare and ToyotaCare Plus to its customers**

*Drivers near Brewer, Maine can get a no-cost maintenance plan at Downeast Toyota*

BREWER, Maine ([PRWEB](#)) July 12, 2022 -- Downeast Toyota, a dealership in Brewer, Maine, offers ToyotaCare and ToyotaCare Plus to drivers in the area. ToyotaCare is included with the purchase or lease of a new Toyota vehicle and lasts for two years or 25,000 miles, whichever comes first. Drivers will also get 24-hour roadside assistance for up to 2 years or unlimited miles. Repair services with ToyotaCare can be redeemed at any Toyota dealership.

ToyotaCare covers the cost of preventative car care for the first two years or 25,000 miles. This means that drivers can get complimentary oil changes, filter changes, multi-point inspections, tire rotations, fluid inspections and fluid level adjustments as needed. Roadside Assistance, which also comes with new Toyota vehicles, offers drivers battery jump starts, lockout protection, emergency fuel delivery, tire services, towing and winching as needed. Roadside Assistance can be called through the Toyota Owner's App.

As the name implies, ToyotaCare Plus is like ToyotaCare but for longer. Owners must have driven fewer than 31,000 miles and be within 37 months of first use in order to get ToyotaCare Plus. ToyotaCare Plus extends the same maintenance services through four years or 45,000 miles, whichever comes first and extends Roadside Assistance to four years or unlimited miles. The extra two years of services get a driver four more preventative care appointments with the services listed above.

Individuals who are interested in ToyotaCare or ToyotaCare Plus can learn more about the services and the dealership on the Downeast Toyota website, [downeasttoyota.com](http://downeasttoyota.com).
