

Photographs from the 1985 NASCAR Sportsman Series Race at The Milwaukee Mile Now Online

Woodstock, Illinois (April 9, 2010) - The John Walczak Collection has added another set of photographs to The Crittenden Automotive Library from the 1985 Milwaukee Sentinel 200.

The Milwaukee Sentinel 200 was a NASCAR Busch Late Model Sportsman Series race held on August 18, 1985 at The Milwaukee Mile in West Allis, Wisconsin. The Busch Late Model Sportsman Series would eventually become today's NASCAR Nationwide Series.

While there are just 19 photographs (and one scanned ticket) in the set, the photographs include rarely seen Sportsman cars of Winston Cup stars. One of these is of Winston Cup Champion Darrell Waltrip during his third and final Cup championship season. Another is an early-career car of 1999 Winston Cup Champion Dale Jarrett. There are also two pictures of an Alan Kulwicki car on a race track 4 miles from his hometown just a few months before he would begin a Winston Cup career that would end shortly after his 1992 Championship.

Also included are Dickie Boswell, Jimmy Hensley, Billy Hogan, Tommy Houston, Robert Ingram, Rick Mast, Butch Miller, L.D. Ottinger, Larry Pollard, Ronnie Silver, and Joe Thurman.

The photographs, along with the race results, can be found on the Milwaukee Sentinel 200 page of The Crittenden Automotive Library at:
